

VERBENA PLANT NAMED 'SUNVIVASAMO'

5

ABSTRACT OF THE DISCLOSURE

Disclosed herein is a new and distinct variety of
Verbena plant having a semi-erect growth habit. The new
10 Verbena plant has abundant branching, the whole plant
remaining in bloom for a considerable period of time. The
flowers are formed in profusion in a spike and the petals
display a deep purplish pink color. The blooming period
is from April to November, and the flowering duration is
15 long. The plant exhibits high tolerance to heat, high
resistance to rain, pests and disease, particularly
powdery mildew.
